Selenium Assignment 2

Selenium RC Assignment

Website 1 – W3School

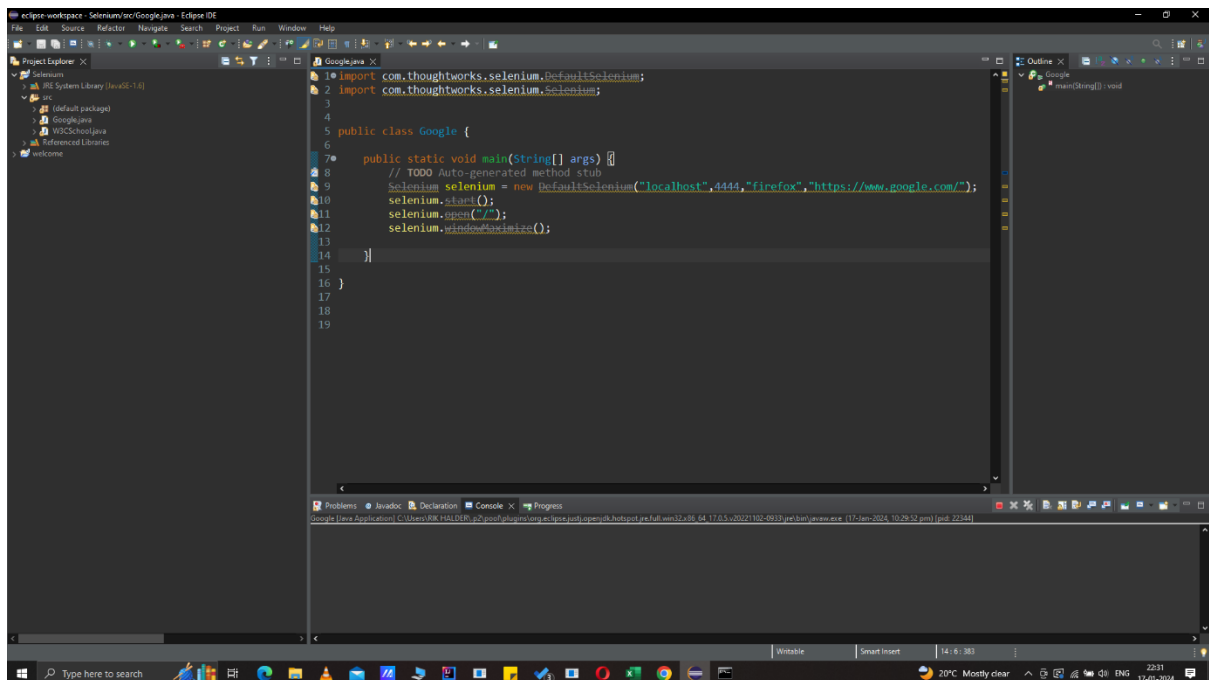

The screenshot shows the Eclipse IDE with a Java project named 'Selenium'. The 'Project Explorer' on the left shows the project structure. The 'Main' class is open in the editor. The code is as follows:

```
1 import com.thoughtworks.selenium.DefaultSelenium;
2
3
4
5 public class W3School {
6
7     // TODO Auto-generated method stub
8     public static void main(String[] args) {
9         selenium selenium = new DefaultSelenium("localhost", 4444, "firefox", "https://www.w3schools.com/");
10        selenium.start();
11        selenium.open("/");
12        selenium.windowMaximize();
13    }
14 }
15
16
17
18
19
```

The 'Console' at the bottom shows the output of the program, indicating that the Selenium server is running successfully.

Website 2 – Google

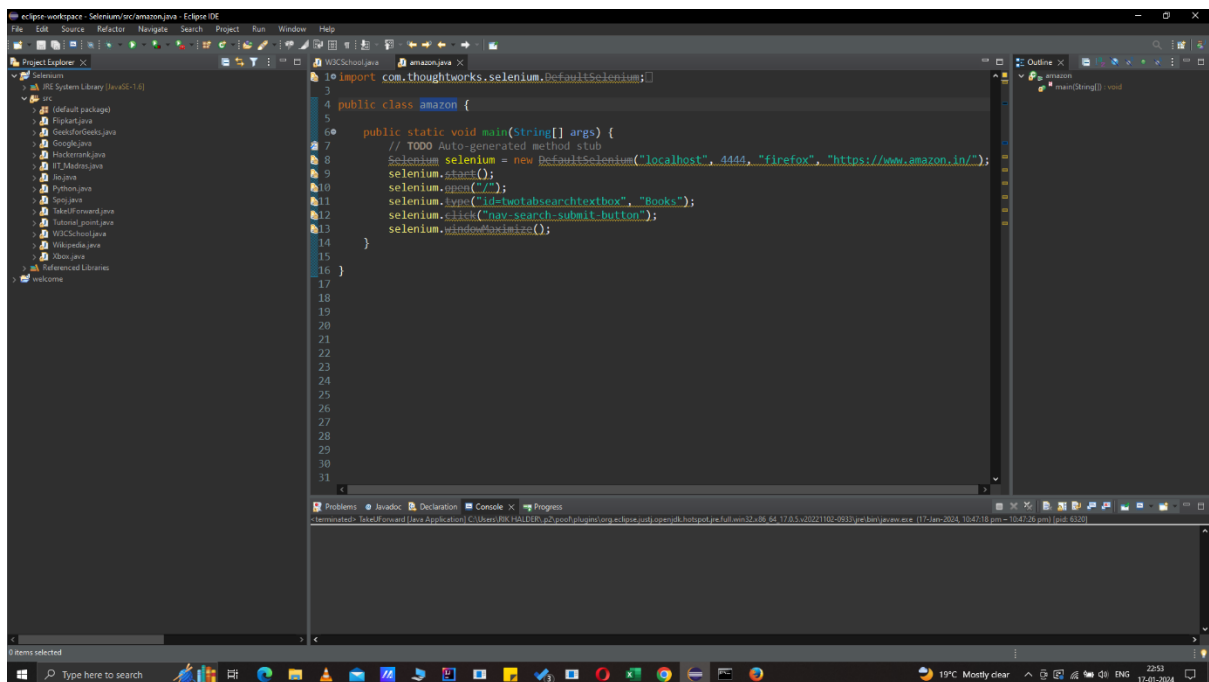

The screenshot shows the Eclipse IDE with a Java project named 'Selenium'. The 'Main' class is open in the editor. The code is as follows:

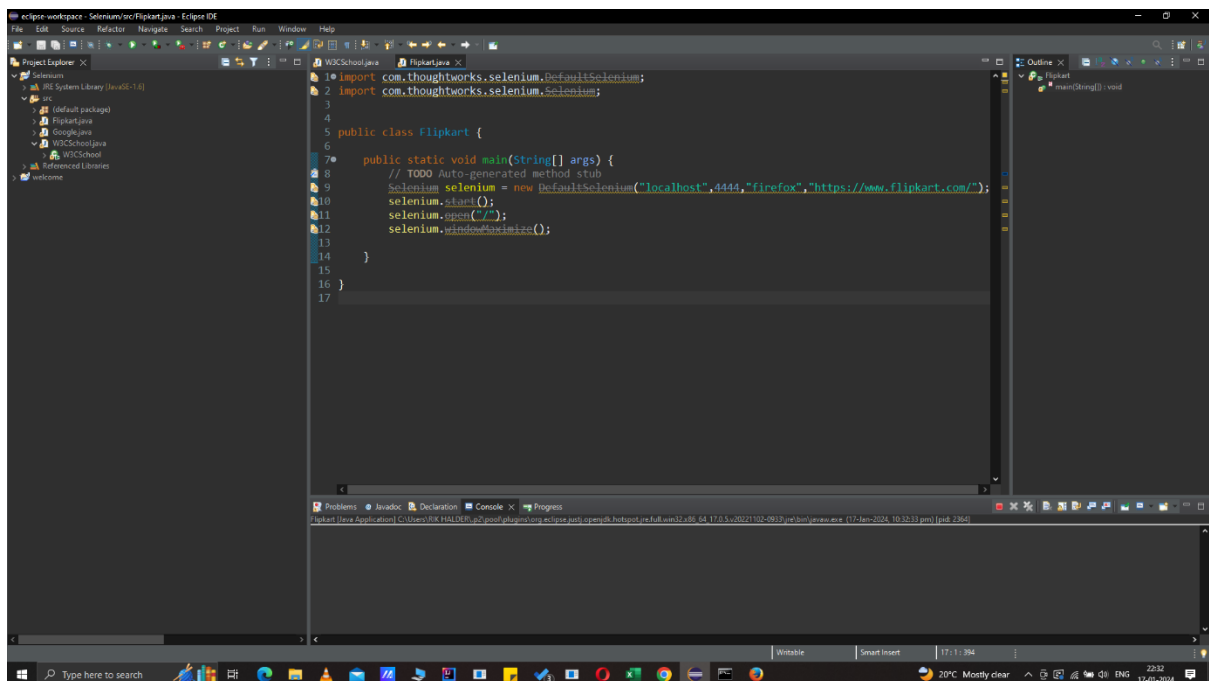

```
1 import com.thoughtworks.selenium.DefaultSelenium;
2 import com.thoughtworks.selenium.Selenium;
3
4
5 public class Google {
6
7     // TODO Auto-generated method stub
8     public static void main(String[] args) {
9         selenium selenium = new DefaultSelenium("localhost", 4444, "firefox", "https://www.google.com/");
10        selenium.start();
11        selenium.open("/");
12        selenium.windowMaximize();
13    }
14 }
15
16
17
18
19
```

The 'Console' at the bottom shows the output of the program, indicating that the Selenium server is running successfully.
